#### CIRCULAR.

The attention of Town Superintendents, Teachers, and others interested in the cause of popular education in the State of Vermont is called to Section 2, Act No. 2, of the Laws of Vermont for the year 1866, which reads as fol-

SECTION 2.—The Board of Education are hereby anthorized, and it is made their duty, on or before July 1, 1867, and on or before said date every lifth year thereafter, to select a list of such grammars, geographies, arithmetics, histories of this State and the United States, philtories of this State and the United States, philosophies, sigebras, readers and spellers, not exceeding one book of a kind m each branch, as they shall deem best suited for instruction and use in the district schools in this State, in each of said branches; and shall cause the list so selected to be published in all the newspapers published in the State, during the month of January next following the making of such selection; and also to be inserted in each school register issued after one year from the making. lection; and also to be inserted in each school register issued after one year from the making of such selection; which list, so selected, shall be and remain authoritative and inding upon the Board of Education, superintendents and teachers, and during five years from and after November 1, 1868, and each five years thereafter; and superintendents and teachers shall recommend for use in the district schools, as new books shall become uncersary for instrucnew books shall become necessary for instruc-tion in the branches named, no other than the books included in said list so selected and pub-

The following is an extract from the Report of the Board of Education, for the year 1867, page 8

Mitchell's First Lessons, Primary, and Intermediate Geographies were adopted, for these reasons, in brief; the simplicity and clearness of the text, the gradual and constant advancement from the primary truths to the higher departments of geographical knowledge, the conciseness and completeness of the definitions, the elegance and accuracy of the maps, the attractiveness of the pictorial illustrations, and the uniform method of treating topics that are similar to each other. Since the adoption of these books, the publishers have taken measures to prepare a special edition of the Intermediate Geography for use in the schools of Vermont. This edition will contain a new quarto map of the State, engraved on copperplate; and four pages of letter press and questions, relating to the geography of Vermont to be prepared by Rev. Pliny H. White, It is believed that this feature, while it is not to increase the cost of the books, will materially increase its value and the interest with which it will be studied. McNally's Physical Geography, accompanied by and the interest with which it will be studied.
McNally's Physical Geography, accompanied by
Monteith's Lessons in Astronomy, was adopted,
to be used in those departments of the study
which are indic.ted by their titles. Guyot's
Common School Geography was adopted as a
Physical Geography of a grade different from
McNally's.

Inasmuch as there seems to be some misapprehension as to the intention and design of the Board in recommending the different text-book in geography, it seems proper to state that i was their intention to recommend the use of Mitchell's Geographies by all classes which have hitherto used, or which would otherwise use Cornell's, and that they did not design that Guyot's Geographies should be used, except by pupils who, having passed through Mitchell's desire to advance to the study of physical geography by Guyot's method. The publishers of Mitchell's New Geographies

will send agents into every town in the State, to supply schools according to the terms annexed and it is hoped that superintendents will furnish every facility for the speedy prosecution of their business.

JOHN B. PAGE PLINT H. WHITE, JONATHAN ROSS, D. D. GORHAM,

OFFICE.

ST. ALBANS.

H. A. CUTLER, Proprietor.

All Printing brought to this Office, both Plain and Ornamental, will meet with prompt attention, at prices as low as the times will admit.

We do our work much better than can any Office that will do a job of printing for nothing for the sake of depriving us of it, and we are ready to compare our work with any similar class of printing done in the cities, both in nestnear and price.

Hand your orders into the Transcript Book and Job Printing Establishment if you take any pride in having your printing done in a workmanlike manner.

### COTTAGE ORGAN TRIUMPHANT !

The Vox Humana Tremolo Crowning Improvement,

In addition to the PATENT HARMONIC AT-

PATENT MANUAL SUB-BASE, Estey & Co. have now further than ever eclipsed all rival makers of Reed Instruments, by the introduction of their

PATENT VOX HUMANA TREMOLO

This most wonderful and beautiful addition to the Cottage Organ is acknowledged by leading musical characters in the country to be the ne plus ultra of all improvements on reed instruments.

Was awarded to this instrument at the New York State Fair and the Fair of the New England States, Vermont State Fair of the New England States, Vermont State Fair, Missouri State Fair, and Iowa State Fair, over all other instruments, including Mason & Hamlin's Cabinet Organs, Smith's American Organ, and Taylor & Farley's. It is very important that purchasers bear in mind that the original and genuine Cottage Organ is made by the House of J. ESTEY & Co.

The chief points of superiority are patented by them, and of course are found on the instruments of no other maker.

The undersigned has made arrangements to furnish Pianos from any of the principal New York and Boston makers, on the most reasonable terms. Satisfaction guaranteed in all cases. Send for an illustrated circular. Address H. A. LYON, St. Albans, Vt. Music, small musical instruments, and presidents.

GREAT IMPROVEMENT IN DENTISTRY.

Was awarded to this instrument at the New

The attention of the public is called to a great CHAMBER SETS, discovery in Dentistry.

discovery in Dentistry.

THE GREATEST ADVANCE STEP EVER MADE IN THE ART.

The main difficulty in wearing artificial teeth is, they do not hold in their place firmly enough, and add to this the annoyance of food getting under the plate while eating. I have discovered a method of so constructing the plate on which the teeth are set that they will not start or drop while eating or speaking, neither will any particles of food get under the plate, no matter what the condition of the mouth is, which is not true of any method hithertoused.

I have secured Letters Patent for the United States, England and France.

States, England and France.

The improvement is not in material, but in the construction, whichs scures the atmospheric pressure on the entire plate.

I have sold the exclusive of said improvement to Dr. L. Gilman, to wit, the Counties of Frank-lin, Washington, Chittenden, Lamoille and Grand Isle. Those wishing to avail themselves of such improvement, will call or
